Rukalin Blue

Moisturizing Liquid Hand Soap

A liquid hand cleaner that leaves a permanent and pleasant smell with its special perfume. Suitable for cleaning and hygiene of the hands in daily use. It does not dry the skin with its moisturizing feature. Provides hygienic cleaning by preventing cross-contamination of personnel, customers, and visitors in hotels, hospitals, restaurants, industrial establishments, shopping malls.

Rukabac

Colorless Odorless Liquid Hand Washing Product

A liquid hand-washing product used to provide hand hygiene in enterprises where food safety is important. Provides effective, permanent and hygienic cleaning thanks to its special formula. It is colorless and odorless. Contains skin protective substances, prevents the hands from being open to contamination by drying out and cracking. It is suitable for skin pH. Used with liquid soap dispensers.

- ▲ Superior cleaning power
- ▲ Does not damage surfaces
- ▲ Does not stain
- ▲ Pleasant-smelling
- ▲ Biodegradability feature in nature

Rukalin White

Moisturizing Liquid Hand Soap

A liquid hand cleaner that leaves a permanent and pleasant smell with its special perfume. Suitable for cleaning and hygiene of the hands in daily use. It does not dry the skin with its moisturizing feature. Provides hygienic cleaning by preventing cross-contamination of personnel, customers, and visitors in hotels, hospitals, restaurants, industrial establishments, shopping malls.

Rukatech

Heavy Industry Hand Cleaning Cream

Easily removes from the skin the solid-liquid oil, tar, and all heavy and sticky impurities encountered in industrial areas. Thanks to the lanolin it contains, it protects the skin.

Ruka Foam

Foam Soap

A foamy hygienic hand soap that is used instead of conventional liquid soaps. Gives softness to the skin with its creamy and non-deflating foam. It can be safely used on sensitive skin thanks to its 5.5 pH, formulation without alkali substance, and hypoallergenic features. It is 10 times more economical than liquid soap.

Rukades

Alcohol Based Disinfectant for Hand and Skin

An alcohol-based, anhydrous, soap-free hand disinfectant used in all areas where the hands need to be disinfected. With its lasting special perfume and the extra moisturizers in its content, it does not irritate hands even during intensive use.
